Good morning. I have been reaching out to every avenue to help me resolve issues that is occurring in the cul de sac of Halbreth/ Chatsworth. Now There has been a Rv (Florida- BZJ434) that has been parked overnight the past 7 days in a yellow zone on a Chatsworth st. Near our sidewalk access to our street on Halbreth. Not only is this Rv parked illegally we have had called to police for the occupants causing a disturbance. Fighting, trespassing, loitering, and suspicious activities. I suspect there is drug dealing going on.

I have called the police every night and nothing has changed. Police came out yesterday but the Rv was still parked overnight. After living here for 21 years this city and the service really is heartbreaking.. These individuals are committing crimes and not being punished. My neighbors and I quality of life are being affected by these individuals which I believe will get worse if nothing is done. So I beg please help us at least resolve this issue with this Rv.

Sincerely,

[REDACTED]

Hi Mr Solorio,

We are having problems with two Rvs parked along Chatsworth st near the sidewalk access to our street Halbreth Ave. This is day 5 they have camped overnight in a yellow zone which is a violation. I have contacted parking enforcement, non emergency police line, and SLO Ruiz. What else should we do? I don't know if rvs were notified by police that they are in yellow zone. They are coming into our cul de sac loitering and trespassing. Did you get any update for us on closure if this sidewalk yet?

Thank you,

[REDACTED]

Hi Mr Solorio,

My neighbors and I are still waiting for a response from you how we can proceed to get this side walk closed. Yesterday we had transients blocking the walkway with their shopping carts, loitering in our cul de sac, and using their drugs openly. They trespassed and showered using my sprinklers and neighbors hose. And we also now have two RVs parked on Chatsworth near the access to our street. The RVS parked overnight in yellow zone which is a violation. I reported it but they are still there. I reached out to SLO Ruiz and still waiting for a response.

I am hoping you can help us resolve this issue.

Thank you,

Hi Mr. Solorio,

I spoke with my neighbors in my cul de sac and the majority is in agreement to get the sidewalk closed. We are just getting too many transients coming in and loitering. The sidewalk is also structural not safe. It is sloped and cause somebody to fall and get hurt. Please let us know if you have an update.

Thank you,

This sidewalk really needs to be closed. This is what I found today on our cul de sac. Homeless guy sleeping on the sidewalk and one guy going through trash. He trespassed and decided to sit on my lawn to openly use his drugs. I called to police and they took over 30min to arrive. By then I already went outside and asked them to leave.

Thank you Mr Solorio. I started taking pictures of the issues we are having in the cul de sac. Just in the last couple of days. Drug dealing, loitering, public intoxication, homeless going through our property, and more. I hoping you can help close off this sidewalk. I Attached a few pics but have more if you need it for documentation.

Thank you again,

Hi [REDACTED]

What's the best phone number to reach you at? I will give you a call as soon as I can.

Hi Mr. Solorio,

Following up to see what information you have regarding closing the walkway on Halbrent to Chatsworth. This week I had to ask 3 homeless men to stop going through our neighbors trash receptacles. And remove a homeless man sleeping on our front lawn. This area really needs some help. There are homeless encampments on Chatsworth/Sepulveda that I have reported. And have not received any response. They are entering our neighborhood through this walkway. My neighborhood would be safer if it was closed off.

Thank you for your time.

Hello [REDACTED]

give me a week or so to inquire with the Bureau of Engineering if closing the public right of way at this location is feasible. The fence is private however the easement/walkway is public so this would most likely require the city to initiate the process to have this right of way closed off.

From prior experience, public right of way closures approved by the city, transfer maintenance and cost of closure to the private individuals requesting the closure/abutting the property. Please follow up with me in a week or so.

Dear Mr. Solorio,

It was a pleasure meeting with you last October. I am still having trouble with the walkway/ sidewalk access to Chatsworth st. from our street Halbrent Ave. The cul de sac is not safe. We are still getting a lot of transients coming into our neighborhood trespassing in our yards. They are blocking sidewalks and bringing in crime into the area. Urinating and exposing themselves. It makes it unsafe. I call the police numerous times. I received a response from the city saying it was a private fence. Would I be able to gate and lock the area? Or do I petition to have it closed. The side walk is also in need of repair and requested the city to fix it before somebody gets hurt. It is not ADA friendly and is hazardous. Please advise me in this matter.

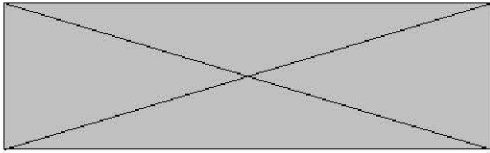

The location is at 10659 Halbrent Ave, Mission Hills 91345

Thank you,

[REDACTED]
